	<b>SECTION:</b> Services	<b>Original effective Date:</b> December 2, 2022
	<b>TITLE:</b> Road Classifications	<b>Last Review Date:</b>
<b>POLICY/PROCEDURE</b>		<b>APPROVED BY:</b>

## 1. POLICY

**1.1.** This policy is in place to establish a consistent practice when dealing with Road Classification.

**1.2.** The Rural Municipality of Keys has multiple classifications for Roads:

1.2.1. **Year-Round Roads** (Red Roads on the Map): These roads are open year-round. The snow is generally cleared within 3 days of a storm.

1.2.2. **Semi-Seasonal Roads** (Blue Roads on Map): These roads are graded in the summer. In the winter, they cleared of snow until such time as they cannot effectively be cleared. At that time, they will be closed.

1.2.3. **Seasonal Roads** (Green Roads on Map): These roads are generally graded in the summer. During the winter, they will not be cleared.

1.2.4. **Road Allowances:** (Double black lines on the Map): These are municipal road allowances and we generally do not grade them during the summer, nor clear snow during the winter.

1.2.5. **Crystal Lake Roads:** All roads within the Organized Hamlet of Crystal Lake are classified as Year-Round Roads.
